

## PRESS RELEASE

### **innowake expands its network - new French partner JVL**

**Senden, Germany and Levallois-Perret, France, 11/30/2011.** Mainframe customers in France have a regional contact: JVL now supports innowake's solutions for modernizing and migrating legacy applications with its team of experts. JVL, a French software company headquartered in Paris also supports French speaking Belgium and the French part of Switzerland. "Many businesses see new ways for their applications paved through modernization and migration," explains Björn Langmack, Director of Sales and Marketing at innowake, "but opportunities for our development environments are bountiful in France." maxenso cobolclipse is one of innowake's Eclipse based IDEs for Cobol. "JVL and innowake fit together very well. Both companies are known for innovative solutions with a solid foot in practical applications" adds Jean-Pierre Vercruysse, CEO at JVL who also founded the company in 1989. "We are anxiously anticipating our cooperation because we see a tremendous need for innowake's products."

#### **About JVL**

Established in January 1989, JVL markets software solutions which, allying pragmatism and innovation, offer ability to react, reliability and evolution capacities to the computer infrastructures. Its approach of the relation customers-providers and quality of the service given to its customers constitute its strength and its specificity: Through its strong emphasis on listening to customers and developing privileged relations with developers, JVL has for goal to supply products adapted to the customers expectations. JVL provides installation, implementation, project accomplishments, training and technical support of all the products JVL distributes. Our company markets products of its developers and partners mainly in France, Switzerland and Belgium part speaking French.
